DUSEKEEPERS ust be Watchful

great efforts are being made in vicinity to sell baking powders of erior class, made from alum acids lime phosphates, both undesire to those who require high-grade am of tartar baking powder to ke clean and healthful food.

The official Government tests have shown Royal Baking Powder to be a pure, healthful, grape cream of tartar baking powder, of highest trength, and care should be taken to prevent the lubstitution of any other brand in its place.

val Baking Powder costs only a price per pound, and is cheaper better at its price than any baking powder in the world.

SUMMONED BY DEATH

New York Is Victim of Heart Disease.

STOCKBRIDGE, Mass., Nov. 7 .-Dr. Charles R. McBurney, the New York surgeon, died suddenly of heart disease early today at the home of his sister in Brookline, Mass.

Dr. McBurney returned from a hunting trip in Maine last Saturday. He this morning.

Dr. McBurney, after a practice of nearly forty years in New York, retired to his country estate in 1907. During his residence in Stockbridge he had

ing his residence in Stockbridge he had been an enthusiastic follower of outdoor life and sports.

Dr. McBurney was born at Roxbury, Mass., sixty-eight years ago. He was a graduate of Harvard college and of the College of Physicians and Surgeons, New York. During his professional life he was connected as visiting or consulting surgeon with many New York hospitals, and for a time was professor of clinical surgery in the College of Physicians and Surgeons.

When President McKinley was shot in 1901, Dr. McBurney was called from Stockbridge and took charge of the case.

NEW YORK, Nov. 7.—Dr. McBurney had already acquired a considerable reputation as a skillful surgeon, when in 1889 he published an essay on "Experience With Operative Interference in Cases of Disease of the Vermiform Appendix." The essay brought him recognition from the whole world and for many years his colleagues jocularly called him the "Father of Appendicitis." His essay created the first general recognition of the disease, established a means of diagnosis and a character of treatment, and gave to American acter of treatment, and gave to America admitted priority and pre-eminence in that treatment. The prominence which he gave to the symptom of localized tenderness, now universally known as "McBurney's point," brought a rendy means of diagnosis and undoubt edly led to the saving of thousands of

odly led to the saving lives.

It is later contributions to medical science included the introduction of the first effective operation for the relief of hermin, a new method of operation for bilinry calculu and a revolutionary change in the method of treating certain dislocations of the humerus. He change in the method of treating certain dislocations of the humerus. He was a pioneer in insisting on aseptic surgery, and he developed a great part of the aseptic operative technique which soon became a matter of course in all operating rooms.

Convalescence after pneumonia, ty-phoid fever and the grip, is sometimes merely apparent, not real. To make it real and rapid there is no other tonic so highly to be recommended as Hood's Sarsaparilla. Thousands so testify. Take Hood's. (Advertisement.)

NEW CORPORATIONS

The friends of the young people learned yesterday of the marriage in Farmington on Thursday of Miss Alta G. Taylor and Louis L. Reynolds. The announcement of the marriage came as a surprise, although friends have known of the engagement for some time. Mr. Reynolds is the chief clerk to A. B. Apperson of the D. & R. G. railway and is well known in local railroad circles. Mr and Mrs. Reynolds will soon be at home in the Palace apartments.

More Bottles Sold Each Year.

It is easy to understand why an in creasing number of bottles of Foley's Honey and Tar Compound is sold year ly. Thos. Verran, 286 Edward Street, Houghton, Mich., gives an excellent reason when he writes: "Foley's Honey and Tar Compound has always proven an effective remedy, quickly relieving tickling in the throat, and stopping the cough with no bad after effects.' Schramm Johnson, Drugs, "The Never-Substitutors," Five (5) Good Stores. (Advertisement.)

FAMOUS SURGEON IS BRITISH SCIENTIST DIES AT AGE OF 91

Dr. Charles R. McBurney of Alfred Russell Wallace Leaves a Name Linked With That of Darwin.

> LONDON, Nov. 7.-Alfred Russell Wallace, an eminent British scientist, died here today, aged 91 years.

Professor Wallace, the "Grand Old Man of Science," shares with Darwin the honors of having set forth the seihad appeared in his usual health until entific principles of evolution. He was the author of more than 200 books

the author of more than 200 books, treatises and monographs.

Wallace's trend toward scientific rescarch dated back to a collection of beetles, which he began as a schoolboy and to complete which he made an expedition to the Amazon in 1848.

A year or two later he visited Sumatra and Java and discovered that the Malay archipelago was divided into a western group of islands which in origin are oriental, and an eastern group, which are Australian. The two groups are divided by a narrow belt of sea known as "Wallace's line," on the opposite sides of which the indigenous animals are as widely divergent as in any two parts of the world.

Wallace became convinced of the truth of evolution and originated the theory of natural selection among these travels. The work in the development of the laws of evolution supplements that of his friend, Darwin, and the result is often called the Darwin-Wallace theory.

He visited the United States in 1887

theory.

He visited the United States in 1887. On the occasion of his ninetieth birth-day, he gave out a long statement in which he said:

which he said:
"I have come to the general conclusion that there has been no advance either in intellect or morals since the days of the earliest Egyptians. Everything is as bad as it possibly can be. There exist in our midst horrors and dreadful diseases never known before. Our whole social environment is rotten full of vice and everything that is

HUSBAND NAILED RUBBER ON GATES

Wife so Weak and Nervous Could Not Stand Least Noise — How Cured.
